Summary

As a committed software professional and lifelong learner, I have a passion for continuous learning and sharing knowledge. My proficiency in developing quality software is complemented by my ability to solve intricate problems with creativity. With a strong work ethic and strong interpersonal skills, I thrive in both team-based and solo projects, adapting swiftly to new challenges, and being able to pivot to reach goals in fast-paced environments.

Skills

- Web Technologies: ReactJS, Jquery, Bootstrap, ExpressJS, NodeJS
- Programming Languages: JavaScript, TypeScript, C#, VBA, SQL
- Object-Oriented Programming
- Databases: SQL Server, MongoDB

- Strong Interpersonal and Communication Skills
- Source and Version Control: Git, Github, Bitbucket
- Problem-Solving
- API Design and Development

Experience

Full Stack Developer | Inland Engineering Services - Corona, CA | 01/2023 - Current

- **Front-End and User Interface Development**: Engineered responsive user interfaces utilizing HTML, CSS, JavaScript, and ReactJS.
- **Back-End Development and Database Management**: Constructed back-end services with ASP.NET and handled data operations, including designing database schemas using SQL Server.
- **API Integration and Version Control**: Integrated API's and maintained version control using Git for collaborative development.
- **Troubleshooting and Debugging**: Conducted troubleshooting and debugging to ensure code reliability and resolve issues, improving overall application stability.
- **Assessed user needs and software requirements** to determine design feasibility and provide timeframes.

AutoCAD Drafter | Inland Engineering Services - Corona, CA | 01/2022 - 01/2023

- **CAD Drawing Development**: Produced detailed AutoCAD drawings from various inputs, ensuring adherence to project specifications and customer requirements for accuracy and quality.
- **Customization and Process Improvement**: Employed AutoLISP and VBA to enhance AutoCAD functionality with custom commands, optimizing the drafting process and improving efficiency.
- **Data Management and Reporting**: Analyzed CAD data to create comprehensive reports, facilitating project tracking and decision-making processes.

Section Leader | Trader Joe's - Cerritos, CA | 04/2015 - 07/2022

- **Efficiency and Strategy Development**: Orchestrated strategies to enhance efficiency, productivity, and cost-effectiveness, achieving significant improvements in section operations.
- **Interdepartmental Problem Solving**: Collaborated with various departments to address and solve operational challenges, contributing to the overall functionality of store processes.
- **Customer Service and Complaint Resolution**: Excelled in providing stellar customer service and resolving complaints, ensuring a positive shopping experience and maintaining professional standards.
- **Data Analysis and Inventory Management**: Analyzed sales data to forecast stocking needs, optimizing inventory levels and contributing to the section's profitability.

Education and Training

University of California, Riverside | Riverside, CA | 01/2019
Certificate: Coding Bootcamp

Cerritos College | Norwalk, CA
Computer Science And Programming
